Pressing ">>" line 2 will show the type of DAB station

Pressing ">>" line 2 will show channel frequency

Pressing ">>" again will show the DAB set-up of DAB regional setting

Settings: menu will allow user to check features as well as control some features.

To upgrade the digital radio module D-MB -1 with new software, this is done by inserting USB stick with to the USB port of the module containing the file "DAB\_UPDA.BIN" on the USB stick when the digital radio module is powered off.

After inserting the USB stick in the module, power on the HU and the power check that the USB stick is being read (e.g. flashing light on USB stick for short time). This process will last less than 20 seconds. Once the led on USB stick has stopped flashing power off the HU.

To check that the new software has been flashed into the digital radio the files name on the USB stick will change to "DAB\_UPDA.YES". This indicates that the software update process was successful.

# Installation Instructions

## Product Information

## NOTE:

D-MB-1 replaces the CD Changer in the MOST network. After the installation the CD changer optical connection is not connected anymore.

### Step 1

First remove the ashtray and the CD Changer to allow access to the head unit. Remove all electrical connectors and slide out the navigation screen to allow easy access to the back.

### Step 2

On the CD Changer harness lift the lock tab gently and pull the insert out of the housing.

## Step 3

Take the D-MB-1 connector housing from the kit and plug back the inserts with the leads into the D-MB-1 connector.

### Step 4

Crimp the black wire to ground and the red wire to 12V Battery Power off the CD changer harness.

#### Step 5

Remove the white optical dust protector from D-MB-1 optical connector and insert it into the CD Changer optical MOST connector to protect from dust and contaminations.

### Step 6

Connect the MOST and the Power plugs to the rear D-MB-1 panel.

### Step 7

Install D-MB-1 within the glove compartment horizontally.

#### Step 8

Insert the ashtray back and lock it to its original position. Now you can power the head unit and follow the User Guide for operation instructions. You will find the D-MB-1 at the CDC menu.
