

IN2DIGI D-MB-2 DAB/DAB+ PRODUCT – KEY FACTS

- An aftermarket product designed to provide a fully integrated Infotainment DAB Service just as the Mercedes Benz (MB) OEM installed part
- in2digi product supports Service Following on all platforms, exceeding the OEM deliverable particularly for NTG2.5
- Fit as a “new install” or “DAB to DAB+” upgrade to MB vehicles (typically, mid 2008 to mid 2015 timescale)
- *New install* :
 - NTG2.5, NTG3 & Audio-20 / Audio-50 systems will need the vehicle to be configured by a Mercedes Benz dealer
 - NTG4 & NTG4.5 / 4.7 COMAND systems are configured internally in the vehicle
 - in2digi product interacts seamlessly with the existing user interface
 - supports an on-glass fitted active antenna
(a recommended product is to be procured separately)

or

MB system antenna amplifier + vehicle on-glass antenna
(additional system parts to support this option are not available from in2digi and would be at the end user additional cost / discretion)

 - Recommended aftermarket active on-glass antennas
 - Alpine KAE-242DA
 - Funke ADSC710
 - AutoDAB SAD-15
- *DAB to DAB+ Update* :
 - Simply exchange the OEM part for the in2digi module
(requires basic modifications to power and antenna connections)
 - No new vehicle DAB install configuration required
