

# DAB-USB

Product solution for JLR “TOUCH” Infotainment System that was generally fitted to new vehicle lines 2015/2016.

*Note: System identification is made by observing the two 4 button sets either side of the vehicle display screen.*

This system does not require any vehicle configuration support which is an advantage to the end customer.

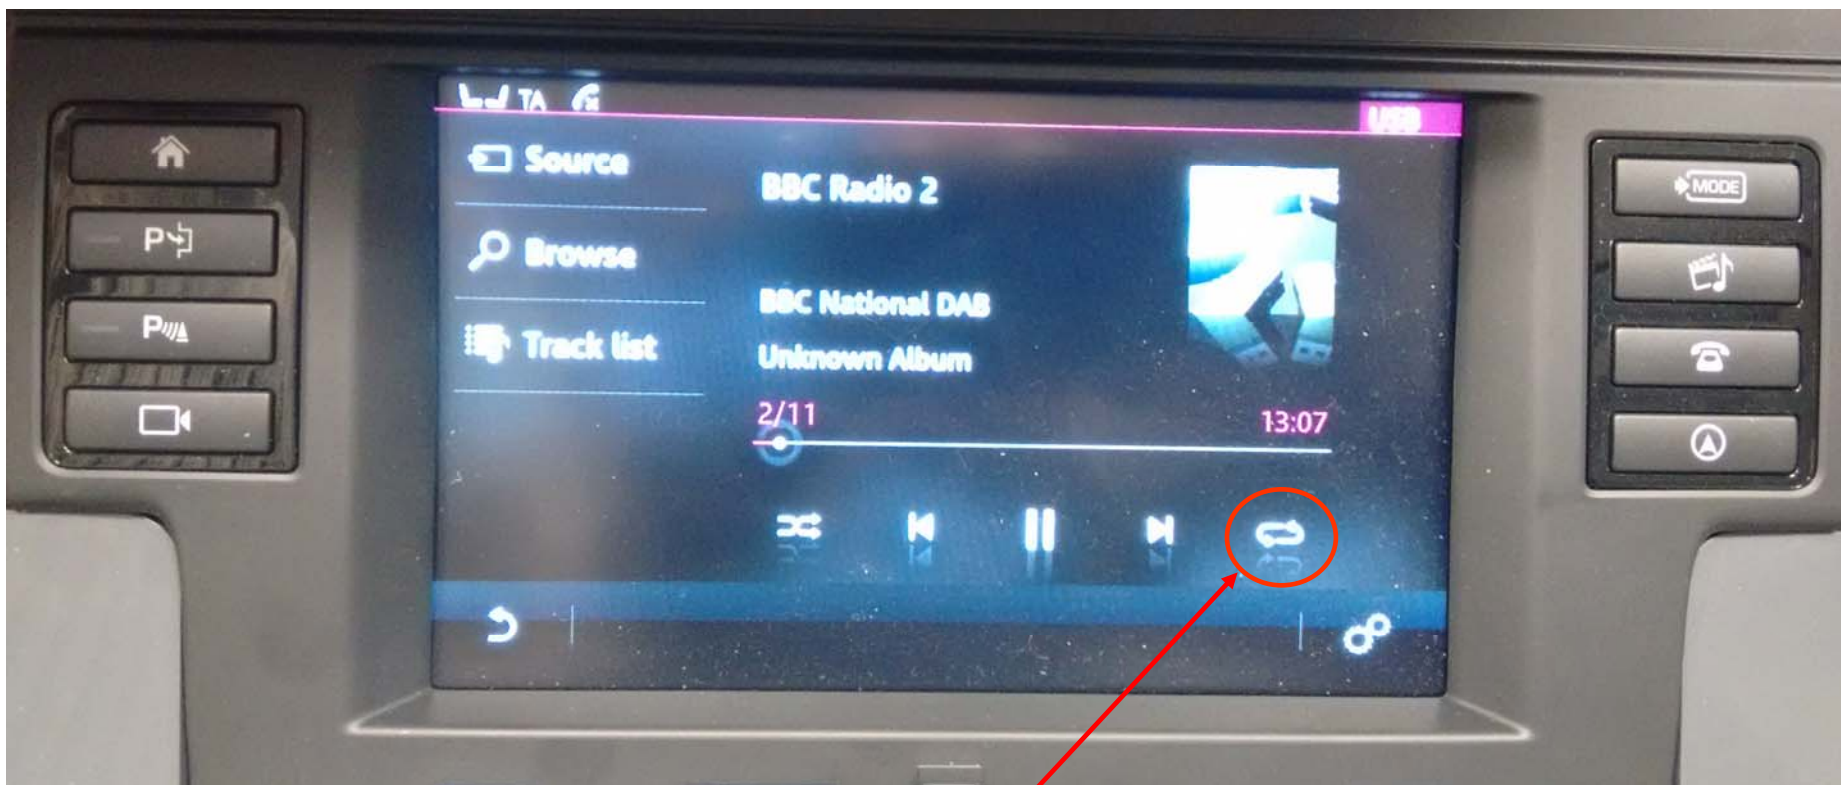

# “TOUCH” VEHICLE DISPLAY (HMI)

System identification - display separating a 4 button interface on each side

# “TOUCH” VEHICLE DISPLAY (HMI)

*Note – it is recommended that the user selects this function*
